*Subject index**

A

Abbreviations in The Journal (Silver) (Letter), 314; (Garfunkel) (Reply), 315
Abdominal radiation and chemotherapy, comparison of morbidity in children requiring, with and without total parenteral nutrition (Ghavimi et al), 524
Abscesses, subperiosteal, in children, association of septic thrombophlebitis with (Jupiter et al), 690
Absorption, delayed, of intraperitoneal blood following intrauterine transfusion, hyperbilirubinemia secondary to (Bowman) (Letter), 482; (Wright and Guthrie) (Reply), 483
Abuse, child, variant of: Doctor shopping with child as proxy patient (Woollcott et al), 297
Abused children, emotionally, rights of (Fost) (Editor's column), 215
Acid, acetylsalicylic, effect on serum-free valproate concentrations and valproate clearance (Farrell et al) (CLO), 142
  therapy, valproic, carnitine deficiency and hyperammonemia associated with (Ohtani et al), 782
Acidosis, lactic, in biotin-responsive multiple carboxylase deficiency caused by holocarboxylase synthetase deficiency of early and late onset (Sherwood et al), 546
  primary distal renal tubular, treated since infancy, natural history of (Rodriguez-Soriano et al), 669
Aciduria, 3-methylglutaconic, inherited, in two brothers: Another defect of leucine metabolism (Duran et al), 551
Acrodermatitis, hepatitis B antigen–negative infantile papular, and Epstein-Barr virus infection, possible association between (Konno et al) (CLO), 222
  papular (Gianotti-Crosti syndrome), in child with anicteric hepatitis B, virus subtype *adw* (Schneider et al) (CLO), 219
Acyclovir therapy of chickenpox in immunosuppressed children: Collaborative study (Prober et al), 622
Adenovirus, enteric type, in hospitalized infants, gastroenteritis associated with (Yolken et al), 21
Adolescents, testicular volumes of (Daniel et al) (CLO), 1010
Adrenal function after beclomethasone inhalation therapy (Konig and Goldstein) (Letter), 646; (Binkiewicz) (Reply), 647
Adrenarche as a cause of benign pseudopuberty in boys (Rosenfield et al), 1005
Adult respiratory distress syndrome in children (Pfenninger et al), 352
Aerosol, albuterol by, and orally administered theophylline in asthmatic children (Lee and Evans) (CLO), 632
Agammaglobulinemia, progressive generalized edema in 8-year-old boy with (Junker and Dimmick), 147
  X-linked, symptomatic giardiasis in three patients with (LoGalbo et al) (CLO), 78
Aganglionosis, acquired distal, of colon (Weinberg et al) (CLO), 406
Age-related probability of development of hereditary medullary thyroid carcinoma (Gagel et al), 941
Air, heated, effects of forced convection on insensible water loss and heat loss in preterm infants in incubators (Okken et al), 108
Albumin-bilirubin binding, effect of pancuronium on (Robertson and Karp) (CLO), 463
Albuterol by aerosol and orally administered theophylline in asthmatic children (Lee and Evans) (CLO), 632
Alcohol ingestion, maternal: Can it cause neural tube defects? (Friedman) (CLO), 232
  syndrome, fetal, cephalometric study of (Frias et al), 870
    new primate model for binge drinking and its relevance to human ethanol teratogenesis (Clarren and Bowden), 819
Alkaline phosphatase–rich plasma from patients with Paget bone disease, enzyme replacement therapy by intravenous infusion of: Infantile hypophosphatasia (Whyte et al), 379
Amino acids, plasma, in preterm infants after feed of human milk or formula (Tikanoja et al), 248
Amniotic fluid cells, cultured, galactosylceramide metabolism in: Prenatal diagnosis of Krabbe disease (Kudoh and Wenger) (CLO), 754
Amoxicillin and cyclacillin, double-blind multicenter comparison of, for treatment of acute otitis media (McLinn et al), 617
Amputations, familial congenital (Etches et al) (CLO), 448
Anaerobic primary plate technique, screening for group A streptococcus using (Beerman and Goldblatt) (CLO), 70
Anemia of bacterial meningitis, decreased erythrocyte deformability in (Sills et al) (CLO), 395
  and iron deficiency in VLBW infants, prevention of (Siimes and Järvenpää) (CLO), 277
  in one-year-old infants, comparison of venipuncture blood counts with microcapillary measurements in screening for (Thomas and Collins), 32
  sickle cell, acute infarction of long bones in children with (Keeley and Buchanan), 170
Aneurysms of aorta, coarctation, peromelia, and ipsilateral subclavian atresia resulting from intrauterine vascular occlusion (Robinow et al) (CLO), 84
Angiography, low radiation ^{191m}iridium radionuclide: Detection and quantitation of left-to-right shunts in infants (Treves et al), 210
  radionuclide, in evaluation of ductal shunts in preterm infants (Vick et al), 264
Angiomatous anomalies, unusual constellation of, in two infants (Shaw and Teja) (CLO), 582
Anomalad, DiGeorge, associated with partial monosomy of chromosome 22 (Kelley et al), 197
Anomalies, angiomatous, two infants with unusual constellation of (Shaw and Teja) (CLO), 582
  of pulmonary valve, possible association with transient congenital hypoparathyroidism (Mallette), 928

*July, pp. 1-162; August, pp. 163-318; September, pp. 319-486; October, pp. 487-652; November, pp. 653-878; December, pp. 879-1038

Antibiotic prophylaxis in cystic fibrosis: Inhaled cephaloridine as adjunct to oral cloxacillin (Nolan et al), 626
Antibodies, islet cell, and Coxsackie B_4 infection three years before overt diabetes (Asplin et al) (CLO), 398
Anticoagulant, circulating endogenous, deep vein thrombosis in association with (MacKay et al) (CLO), 75
Anticoagulant therapy by continuous heparinization in newborn and older infants (McDonald and Hathaway), 451
Antigen-negative (hepatitis B) infantile papular acrodermatitis and Epstein-Barr virus infection, possible association between (Konno et al) (CLO), 222
Antihelmintic, new broad-spectrum, praziquantel, treatment of pulmonary paragonimiasis with (Spitalmy et al) (CLO), 144
Antihistamine, effect on pulmonary function of children with asthma (Lewiston et al) (CLO), 458
-decongestant used in conjunction with anti-infective drug in treating acute otitis media (Moran et al), 132
Antley-Bixler syndrome (Robinson et al), 201
Anxiety and pain, hypnosis and nonhypnotic techniques for reduction of, during painful procedures in children and adolescents with cancer (Zeltzer and LeBaron), 1032
Aorta, aneurysms of, coarctation, peromelia, and ipsilateral subclavian atresia resulting from intrauterine vascular occlusion (Robinow et al) (CLO), 84
Aplasia, radial, radial artery anatomy in. I. Vascular pathogenesis of limb defects (Van Allen et al) 832
Aplasia cutis, scalp vertex, origin of (Stephan et al), 850
Apnea and gastroesophageal reflux (Leape) (Letter), 481
and respiratory syncytial virus infection in infants, association of (Anas et al) (CLO), 65
sleep, sleep duration, and infant temperament (Weissbluth et al) (CLO), 307
Apple juice, fresh, outbreak of hemolytic uremic syndrome associated with (Steele et al) (CLO), 963
Arousal responses in near-miss sudden infant death syndrome and in normal infants (McCulloch et al), 911
Artery occlusion, internal carotid, in *Haemophilus influenzae* meningitis (McMenamin) (CLO), 723
L-Asparaginase revisited, neurotoxicity of (White et al) (Letter), 484
Aspiration, bone marrow, with 22-gauge spinal needle (Urban et al) (Letter), 1036
massive blood, macroscopic hemoglobinuria in neonate with (Saia and Gasparotto) (CLO), 446
Asthma, effect of antihistamine on pulmonary function of children with (Lewiston et al) (CLO), 458
Asthmatic children, albuterol by aerosol and orally administered theophylline in (Lee and Evans) (CLO), 632
Atresia, ipsilateral subclavian, peromelia, coarctation, and aneurysms of aorta resulting from intrauterine vascular occlusion (Robinow et al) (CLO), 84
Auditory brainstem responses in preterm neonates: Maturation and follow-up (Roberts et al), 257
in sudden infant death syndrome: Comparison of siblings, "near-miss," and normal infants (Kileny et al) (CLO), 225
Autoimmune diabetes and Coxsackie B viruses (Bartsocas et al) (Letter), 647; (Champsaur) (Reply), 648
Autosomal-dominant microcephaly (Rossi and Battilana) (Letter), 481; (Haslam) (Reply), 482

B

Bacteremia, febrile infants predictors of (Crain and Shelov), 686
Bacterial colonization of gastrointestinal tract, changes in, and correlation with breath hydrogen in preterm infants (Stevenson et al) (CLO), 607
infections, severe recurrent, associated with defective adherence and chemotaxis in two patients with neutrophils deficient in cell-associated glycoprotein (Bowen et al), 932
meningitis, decreased erythrocyte deformability in amemia of (Sills et al) (CLO), 395
Bacteriostasis of human serum, effect of iron saturation on: In vivo does not correlate with in vitro saturation (Baltimore et al), 519
Basement membrane, attenuation glomerular, in familial nephritis and "benign" hematuria (Piel et al), 358
IgG disposition, linear tubular, and tubular dysfunction, membranous glomerulonephropathy with (Wood et al) (CLO), 414
Beclomethasone inhalation therapy, adrenal function after (Konig and Goldstein) (Letter), 646; (Binkiewicz) (Reply), 647
Behavior problems, self-esteem, family functioning, and social competence: Psychosocial aspects of constitutional short stature and (Gordon et al), 477
Behavioral reactions, adverse, in children treated with carbamazepine (Tegretol) (Silverstein et al) (CLO), 785
Betamethasone, effect of prenatal exposure to, on metronidazole elimination in premature infants (Doyle et al) (Letter), 647
and hydrocortisone regimens, comparison of: Glucocorticoid activity in cord serum (Ballard and Liggins) (CLO), 968
Beta-sympathomimetic therapy, short-term maternal, neonatal hyperinsulinism after (Procianoy and Pinheiro) (CLO), 612
Bilirubin-albumin binding, effect of pancuronium on (Robertson and Karp) (CLO), 463
Bioavailability of theophylline products (Levitt and Kann) (Letter), 483; (Weinberger) (Reply), 484
Birth weight and gestational age, neonatal mortality risk in relation to: Update (Koops et al), 969
estimated blood volumes in polycythemic neonates as function of (Rawlings et al), 594
Blood aspiration, massive, macroscopic hemoglobinuria in neonate with (Saia and Gasparotto) (CLO), 446
counts, venipuncture, compared with microcapillary measurements in screening for anemia in one-year-old infants (Thomas and Collins), 32
flow patterns, abnormal cerebral, in preterm infants with large patent ductus arteriosus (Martin et al), 587
velocity, cerebral, in infants with polycythemia and hyperviscosity: Effects of partial exchange transfusion with plasmanate (Rosenkrantz and Oh), 94
intraperitoneal, delayed absorption of, following intrauterine transfusion, hyperbilirubinemia secondary to (Bowman) (Letter), 482; (Wright and Guthrie) (Reply), 483
platelet volumes, whole, in newborn infants (Kipper and Sieger) (CLO), 763

Blood—Cont'd
transfusion in neonate: Effects of dilution and age of blood on hemolysis (Humphrey et al) (CLO), 605
volumes, estimated, in polycythemic neonates, as function of birth weight (Rawlings et al), 594
Blount disease (tibia vara): Another skeletal disorder associated with childhood obesity (Dietz et al) (CLO), 735
Bonding phenomenon: Misinterpretations and implications (Lamb) (Editor's column), 555
Bone disease, Paget, enzyme replacement therapy by intravenous infusion of alkaline phosphatase–rich plasma from patients with: Infantile hypophosphatasia (Whyte et al), 379
long, in children with sickle cell anemia, acute infarction of (Keeley and Buchanan), 170
marrow aspiration with 22-gauge spinal needle (Urban et al) (Letter), 1036
imaging in malignancies, usefulness of (Oseas et al), 206
transplantation for chronic granulomatous disease (Rappeport et al) (CLO), 952
mineral content, loss of, in lactating adolescents (Greer and Garn) (Editor's column), 718
status, decreased, in lactating adolescent mothers (Chan et al), 767
Book reviews
Children and sex: New findings, new perspectives (Aylward), 586
Hyperactive children: A handbook for diagnosis and treatment (Marcus), 586
Neonatal neurology (Fishman), 558
Pediatric telephone advice (Comerci), 422
Rheumatic diseases in childhood (Singsen), 88
Brainstem responses, auditory, in preterm neonates: Maturation and follow-up (Roberts et al), 257
in sudden infant death syndrome: Comparison of siblings, "near-miss," and normal infants (Kileny et al) (CLO), 225
Breast-fed infant(s), correlation between changeable human milk constitutents and milk intake in (Dorea et al) (CLO), 80
dietary protein–induced colitis in (Lake et al), 906
hydrochlorothiazide disposition in mother and (Miller et al) (CLO), 789
normal, vitamin K–dependent clotting factors in (Tay and Yip) (Letter), 795; (Jiménez) (Reply), 795
very LBW, human milk protein supplementation prevents hypoproteinemia without metabolic imbalance in (Rönnholm et al), 243
Breast-feeding, maternal-infant vitamin D relationships during (Rothberg et al), 500
Breast-milk jaundice (Hernell) (Letter), 311; (Poland) (Reply), 312
Breath hydrogen in preterm infants: Correlation with changes in bacterial colonization of gastrointestinal tract (Stevenson et al) (CLO), 607
Bronchopulmonary dysplasia, effect of vitamin E prophylaxis on incidence and severity of (Saldanha et al), 89
Brucella canis infection in 17-month-old child successfully treated with moxalactam (Tosi and Nelson) (CLO), 725

C

Caffey disease, prostaglandin synthetase inhibitor in (Heyman et al) (Letter), 314
Calcium, magnesium, zinc, and copper in human milk (Fransson and Lönnerdal), 504
Cancer; *see also* Carcinoma
children and adolescents with, hypnosis and nonhypnotic techniques for reduction of pain and anxiety during painful procedures (Zeltzer and LeBaron), 1032
end-stage, therapeutic choices made by patients with (Nitschke et al), 471
Carbamazepine (Tegretol), adverse behavioral reactions in children treated with (Silverstein et al) (CLO), 785
Carboxylase deficiency, biotin-responsive multiple, caused by holocarboxylase synthetase deficiency, lactic acidosis in, in patients with early and late onset (Sherwood et al), 546
Carcinoma, hereditary medullary thyroid, age-related probability of development of (Gagel et al), 941
Cardiac output, noninvasive pulsed Doppler determination of (Alverson et al), 46
Cardiomyopathy, familial, carnitine deficiency presenting as: Treatable defect in carnitine transport (Waber et al), 700
hypertrophic, is component of subacute necrotizing encephalomyelopathy (Rutledge et al), 706
Carnitine deficiency and hyperammonemia associated with valproic acid therapy (Ohtani et al), 782
presenting as familial cardiomyopathy: Treatable defect in carnitine transport (Waber et al), 700
Carotid artery occlusion, internal, in *Haemophilus influenzae* meningitis (McMenamin) (CLO), 723
Celiac disease and congenital permanent diabetes mellitus (Hattevig et al) (CLO), 955
Cell(s), cultured amniotic fluid, galactosylceramide metabolism in: Prenatal diagnosis of Krabbe disease (Kudoh and Wenger) (CLO), 754
islet, antibodies and Coxsackie B_4 infection three years before overt diabetes (Asplin et al) (CLO), 398
Cellularity, mesangial, in steroid-responsive nephrotic syndrome (Waldherr et al) (Letter), 794
Cephalometric study of fetal alcohol syndrome (Frias et al), 870
Cephaloridine, inhaled, as an adjunct to oral cloxacillin, antibiotic prophylaxis in cystic fibrosis (Nolan et al), 626
Cerebral blood flow patterns, abnormal, in preterm infants with large patent ductus arteriosus (Martin et al), 587
velocity in infants with polycythemia and hyperviscosity: Effects of partial exchange transfusion with plasmanate (Rosenkrantz and Oh), 94
Cerebrospinal fluid, penetration of moxalactam into (Landesman) (Letter), 160; (Thirumoorthi et al) (Reply), 161
Cesarean section and vaginal deliveries, leukocyte function in healthy neonates following (Frazier et al), 269
Chemical and radiation hazards to children: Highlights of a meeting (Miller), 495
Chemotaxis and defective adherence, severe recurrent bacterial infections associated with, in two patients with neutrophils deficient in cell-associated glycoprotein (Bowen et al), 932
neutrophil, in term and preterm newborn infants, different maturation of (Sacchi et al) (CLO), 273
Chemotherapy and abdominal radiation, comparison of morbidity in children requiring, with and without total parenteral nutrition (Ghavimi et al), 524
Chickenpox in immunosuppressed children, acyclovir therapy of: Collaborative study (Prober et al), 622

Chloramphenicol hepatitis-pancytopenia syndrome, complete hematologic and hepatic recovery in a patient with (Casale et al) (CLO), 1025
therapy, initiation of, in the newborn infant (Rajchgot et al), 1018
toxicity, acute, exchange transfusion in (Chavers et al) (Letter), 652
Chromosome, extra C-group, and q14+ marker, hypereosinophilic syndrome and lymphoblastic leukemia with (Chilcote et al), 57
22, association of DiGeorge anomalad with partial monosomy of (Kelley et al), 197
Clotting factors, vitamin K–dependent, in normal breast-fed infants (Tay and Yip) (Letter), 795; (Jiménez) (Reply), 795
Cloxacillin, oral, inhaled cephaloridine as adjunct to, in cystic fibrosis (Nolon et al), 626
Coagulase-negative staphylococcal septicemia: Experience in a newborn intensive care unit (Munson et al) (CLO), 602
Coagulation findings, normal thrombocytopenia, and peripheral hemoconcentration in neonatal polycythemia (Katz et al), 99
Coarctation, peromelia, ipsilateral subclavian atresia, and aneurysyms of aorta resulting from intrauterine vascular occlusion (Robinow et al) (CLO), 84
Coccidioidomycosis, disseminated (Westley) (Letter), 154
Colitis, dietary protein–induced, in breast-fed infants (Lake et al), 906
Colon, acquired distal aganglionosis of (Weinberg et al) (CLO), 406
Colonization, group B streptococcal, rapid detection of, by a direct immunofluorescent antibody technique (Ryan and Barrett) (CLO), 993
Congenital amputations, familial (Etches et al) (CLO), 448
cytomegalovirus infection, prevalence and importance of, in three different populations (Stagno et al), 897
herpes simplex virus infection initially resembling epidermolysis bullosa (Honig and Brown) (CLO), 958
hypoparathyroidism, transient: Possible association with anomalies of pulmonary valve (Mallette et al), 928
primary, in Spanish-surnamed infants in Southern California (Frasier et al) (Letter), 315
hypothyroidism, ^{123}I thyroidal uptake and scintigraphy (Heyman et al) (CLO), 571
lactase deficiency, use of lactose-hydrolyzed human milk in (Similä et al) (CLO), 584
malaria: Report of four cases and review (Quinn et al) (CLO), 229
muscular dystrophy, Fukuyama type (McMenamin et al) (CLO), 580
nephrotic syndrome, hypothyroidism in (McLean et al) (CLO), 72
pulmonary hypoplasia, lung function in infants with (Helms and Stocks), 918
Constipation, pathophysiology of (Abrahamian and Lloyd-Still) (Letter), 795; (Loening-Baucke) (Reply), 796
Contraceptive pills, oral, hematologic abnormalities in adolescents who take (Grace et al) (CLO), 771
Copper, calcium, magnesium, and zinc in human milk (Fransson and Lönnerdal), 504
Cord growth, umbilical, tension as basis of (Miller et al), 844
Cord serum, glucocorticoid activity in, comparison of hydrocortisone and betamethasone regimens (Ballard and Liggins) (CLO), 468
Corticotropin in primary infantile spasms, efficacy of (Lerman and Kivity) (CLO), 294
Coxsackie B viruses and autoimmune diabetes (Bartsocas et al) (Letter), 647; (Champsaur) (Reply), 648
Coxsackie B_4 infection and islet cell antibodies three years before overt diabetes (Asplin et al) (CLO), 398
Cranial blood volume changes during mechanical ventilation and spontaneous breathing in newborn infants (Leahy et al), 984
intra-, germinoma, endocrine aspects and tumoral markers in: Attempt to delineate diagnostic procedure in 14 patients (Pomarede et al), 374
C-reactive protein, serum, and problems of newborn infants (Ainbender et al) (CLO), 438
Crohn disease and growth failure, effect of disease, drug, and diet on whole body protein metabolism in adolescents with (Motil et al), 345
and orbital pseudotumor (Camfield et al) (Letter), 157; (Young) (Reply), 158
Croup, racemic epinephrine in treatment of: Nebulization alone versus nebulization with intermittent positive pressure breathing (Fogel et al) (CLO), 1028
and wheezing following infection, role of parainfluenza virus–specific IgE in (Welliver et al), 889
Cryptorchidism, results of early treatment of, with human chorionic gonadotropin (hCG) (Garagorri et al), 923
Cyclacillin and amoxicillin, double-blind multicenter comparison of, for treatment of acute otitis media (McLinn et al), 617
Cysts, eruptive vellus hair: Benign condition (d'Aubermont et al) (CLO), 727
Cystic fibrosis, antibiotic prophylaxis in: Inhaled cephaloridine as adjunct to oral cloxacillin (Nolan et al), 626
Pseudomonas aeruginosa pneumonia in, applied pharmacokinetics in acute exacerbations of (Fraser et al), (Letter), 792; (Kelly et al) (Reply), 793; (Kearns et al) (Reply), 793
psychosocial adjustment of children with, family functioning as a mediating variable affecting (Lewis and Khaw), 636
summer camp, communicability of *Pseudomonas aeruginosa* in (Speert et al) (CLO), 227
Cytomegalovirus infection, congenital, prevalence and importance of, in three different populations (Stagno et al), 897
chronic, possible role of: Nonfebrile seizures after febrile convulsions (Iannetti et al), 27
persistence of, in human milk after storage (Dworsky et al) (CLO), 440

D

Death syndrome, near-miss sudden infant, and normal infants, arousal responses in (McCulloch et al), 911
sudden infant, auditory brainstem responses in: Comparison of siblings, "near-miss," and normal infants (Kileny et al) (CLO), 225
diphtheria–tetanus toxoids–pertussis vaccination and, in Tennessee (Bernier et al) (CLO), 419
and serum T_3 values (Lee et al) (Letter), 161; (Chacon and Tildon) (Reply), 162
Decongestant-antihistamine used in conjunction with anti-infective drug in treating acute otitis media (Moran et al), 132
Deficiency, hereditary transcobalamin II, presenting as red cell hypoplasia (Niebrugge et al) (CLO), 732

Dermatitis, candidal diaper: A double-blind placebo-controlled comparison of topical nystatin to topical plus oral nystatin (Munz et al) (CLO), 1022
Developmental deficits in iron-deficient infants: Effects of age and severity of iron lack (Lozoff et al) (CLO), 948
Developmental field concept in clinical genetics (Opitz), 805
Dexamethasone administration, antenatal, leukemoid reaction associated with (Anday and Harris) (CLO), 614
Diabetes, autoimmune, and Coxsackie B viruses (Bartsocas et al) (Letter), 647; (Champsaur) (Reply), 648
insipidus, nephrogenic, tolmetin sodium in managment of (Chevalier and Rogol) (CLO), 787
insulin-requiring, before age 3 and after age 5, endocrine pancreatic response with onset of (Ternand et al), 36
mellitus, congenital permanent, and celiac disease (Hattevig et al) (CLO), 955
of childhood, limited joint mobility in: Natural history and relationship to growth impairment (Rosenbloom et al), 874
overt, coxsackie B_4 infection and islet cell antibodies three years before (Asplin et al) (CLO), 398
Diabetic children, factors affecting glycosylated hemoglobin in (Dorchy and Haumont) (Letter), 160
patient, young, effect of intensive insulin treatment on linear growth in (Rudolf et al), 333
Diaper rash, incidence of, when using cloth and disposable diapers (Stein) (CLO), 721
Diarrhea caused by adherent enteropathogenic *E. coli* (Rothbaum et al) (Letter), 486
effect of, on serum zinc concentrations in infants and children (Naveh et al) (CLO), 730
oral rehydration for (Finberg et al), 497; (Harrison et al) (Letter), 1037
Diet, drug, and disease, effect on whole body protein metabolism in adolescents with Crohn disease and growth failure (Motil et al), 345
DiGeorge anomalad associated with partial monosomy of chromosome 22 (Kelley et al), 197
Digitalis in newborn infant with Wolff-Parkinson-White syndrome, ventriuclar fibrillation associated with use of (Byrum et al) (CLO), 400
Diphtheria–tetanus toxoids–pertussis vaccination and sudden infant deaths in Tennessee (Bernier et al) (CLO), 419
Diuretic phase of respiratory distress syndrome, changes in pulmonary function during (Heaf et al), 103
Doppler determination, noninvasive pulsed, of cardiac output (Alverson et al), 46
Drinking, binge, new primate model for, and its relevance to human ethanol teratogenesis: Fetal alcohol syndrome (Clarren and Bowden), 819
Drug, diet, and disease, effect on whole body protein metabolism in adolescents with Crohn disease and growth failure (Motil et al), 345
Ductal shunts in preterm infants, radionuclide angiography in evaluation of (Vick et al), 264
Ductus arteriosus, ligation of, in preterm infants, physiologic changes associated with (Marshall et al), 749
patent, furosemide prevents renal side effects of indomethacin therapy in premature infants with (Yeh et al), 433
Dwarfism, postnatal, mental retardation, unusual face, and protruding ears, new malformation syndrome of: Niikawa-Kuroki syndrome (Koutras and Fisher) (CLO), 417
Dysautonomia, familial, prospective study of survival (Axelrod and Abularrage) (CLO), 234
Dysplasia, bronchopulmonary, effect of vitamin E prophylaxis on incidence and severity of (Saldanha et al), 89
malformation, and neuromuscular syndromes, Robin sequence as consequence of (Carey et al), 858
Dysraphic disorders, axial, possible mesodermal origin for (Jones et al), 845
Dystrophy, Fukuyama-type congenital muscular (McMenamin et al) (CLO), 580

E

Edema limited to scalp, upper face, and orbits, an unusual presentation in scleredema (Burke et al) (CLO), 960
progressive generalized, in 8-year-old boy with agammaglobulinemia (Junker and Dimmick), 147
Education, continuing, in community hospital, and reduction in incidence of intracerebral hemorrhage in transported preterm infant (Lazzara et al) (CLO), 757
Elimination, renal, and metabolism of furosemide in newborn infant (Aranda et al), 777
Embolization, fatal intraoperative pulmonary, of Wilms tumor (Shurin et al) (CLO), 559
partial splenic, in management of hypersplenism secondary to Gaucher disease (Thanopoulos and Frimas) (CLO), 740
selective, of stenotic intrarenal artery for control of hypertension (Warren et al) (CLO), 743
Emotionally abused children, rights of (Fost) (Editor's column), 215
Encephalomyelopathy, subacute necrotizing, hypertrophic cardiomyopathy is component of (Rutledge et al), 706
Endocrine aspects and tumoral markers in intracranial germinoma: Attempt to delineate diagostic procedure in 14 patients (Pomarede et al), 374
Endocrine pancreatic response with onset of insulin-requiring diabetes before age 3 and after age 5 (Ternand et al), 36
Endotracheal tube placement in neonates, depth of (Kohelet et al) (Letter), 157
Enteric-type adenovirus in hospitalized infants, gastroenteritis associated with (Yolken et al), 21
Enterocolitis-associated combined immunodeficiency, reversal of, by plasma therapy (Cannon et al), 711
Enteropathogenic *E. coli*, adherent, diarrhea caused by (Rothbaum et al) (Letter), 486
Enuresis, nocturnal, controlled comparison of two treatments for (Wagner et al), 302
Enzyme replacement therapy by intravenous infusion of alkaline phosphatase–rich plasma from patients with Paget bone disease: Infantile hypophosphatasia (Whyte et al), 379
Epidemics of Kawasaki syndrome (Jacobs) (Letter), 649; (Dean) (Reply), 650
Epidermolysis bullosa, congenital herpes simplex virus infection initially resembling (Honig and Brown) (CLO), 958
Epinephrine, racemic, in treatment of croup: Nebulization alone versus nebulization with intermittent positive pressure breathing (Fogel et al) (CLO), 1028
Epstein-Barr virus infection and hepatitis B antigen–negative infantile papular acrodermatitis, possible association between (Konno et al) (CLO), 222

Erratum, 480
Erythrocyte deformability, decreased, in anemia of bacterial meningitis (Sills et al) (CLO), 395
Escherichia coli, adherent enteropathogenic, diarrhea caused by (Rothbaum et al) (Letter), 486
Ethanol teratogenesis, human, new primate model for binge drinking and its relevance to: Fetal alcohol syndrome (Clarren and Bowden), 819
Exercise, ergometer, responses to, in healthy biracial population (Alpert et al), 538

F

Familial dysautomonia: Prospective study of survival (Axelrod and Abularrage) (CLO), 234
Family functioning, social competence, behavior problems, and self-esteem: Psychosocial aspects of constitutional short stature (Gordon et al), 477
Fasted children, motilin, human pancreatic polypeptide, gastrin, and insulin plasma concentrations in (Janik et al), 51
Febrile convulsions, nonfebrile seizures after: Possible role of chronic cytomegalovirus infection (Iannetti et al), 27
Febrile infants: Predictors of bacteremia (Crain and Shelov), 686
Ferritin, serum, as measure of iron stores in adolescents (Bailey et al) (CLO), 774
Festschrift: David W. Smith, 799-878
Fibrillation, ventricular, associated with use of digitalis in newborn infant with Wolff-Parkinson-White syndrome (Byrum et al) (CLO), 400
Fluid therapy in the neonate, concepts in transition (Arant) (Editor's Column), 387
Footdrop in the neonate secondary to use of footboards (Fischer and Strasburger) (CLO), 1003
Formula or human milk, plasma amino acids in preterm infants after feeding of (Tikanoja et al), 248
Fukuyama-type congenital muscular dystrophy (McMenamin et al) (CLO), 580
Furosemide, metabolism and renal elimination of, in newborn infant (Aranda et al), 777
  prevents renal side effects of indomethacin therapy in premature infants with patent ductus arteriosus (Yeh et al), 433

G

Galactorrhea and neonatal hypothyroidism (Macaron) (CLO), 576
Galactosylceramide metabolism in cultured amniotic fluid cells: Prenatal diagnosis of Krabbe disease (Kudoh and Wenger) (CLO), 754
Gastrin, motilin, human pancreatic polypeptide, and insulin plasma concentrations in fasted children (Janik et al), 51
Gastroenteritis associated with enteric-type adenovirus in hospitalized infants (Yolken et al), 21
Gastroesophageal reflux and apnea (Leape et al) (Letter), 481
Gastrointestinal tract, changes in bacterial colonization of, and correlation with breath hydrogen in preterm infants (Stevenson et al) (CLO), 607
Gaucher disease, partial splenic embolization in management of hypersplenism secondary to (Thanopoulos and Frimas) (CLO), 740
Genetics, clinical, developmental field concept in (Opitz), 805
Germinoma, intracranial, endocrine aspects and tumoral markers in: Attempt to delineate diagnostic procedure in 14 patients (Pomarede et al), 374
Gestational age and birth weight, neonatal mortality risk in relation to: Update (Koops et al), 969
Gianotti-Crosti syndrome (papular acrodermatitis) in child with anicteric hepatitis B, virus subtype *adw* (Schneider et al) (CLO), 219
  or Gianotti disease? (San Joaquin and Marks) (Editor's column), 216
Giardiasis, symptomatic, in three patients with X-linked agammaglobulinemia (LoGalbo et al) (CLO), 78
Glomerulonephropathy, membranous, with tubular dysfunction and linear tubular basement membrane IgG deposition (Wood et al) (CLO), 414
Glomerulopathy, idiopathic membranous, in Canadian children: Clinicopathologic study (Latham et al), 682
Glomerulosclerosis, focal segmental, with idiopathic nephrotic syndrome: Three types of clinical response (Arbus et al), 40
Glucocorticoid activity in cord serum: Comparison of hydrocortisone and betamethasone regimens (Ballard and Liggins) (CLO), 468
Glucose production in type I glycogen storage disease (Kalhan et al) (Letter), 159; (Greene) (Reply), 160
  tolerance, impaired, prognosis with stress hyperglycemia, symptoms of hypoglycemia, or asymptomatic glucosuria (Rosenbloom and Hunt), 340
β-Glucuronidase deficiency (mucopolysaccharidosis VII) presenting as nonimmune hydrops fetalis (Nelson et al) (CLO), 574
Glycogen storage disease, type I, glucose production in (Kalhan et al) (Letter), 159; (Greene) (Reply), 160
Glycoprotein, cell-associated, severe recurrent bacterial infections associated with defective adherence and chemotaxis in two patients with neutrophils deficient in (Bowen et al), 932
Glycosylated hemoglobin in diabetic children, factors affecting (Dorchy and Haumont) (Letter), 160
Granulomatous disease, chronic, allogeneic bone marrow transplantation for (Rappeport et al) (CLO), 952
Great vessels, transposition of, and hyperoxia (Vizcarrondo et al) (Letter), 651; (Wells et al) (Letter), 651; (Batton et al) (Reply), 651
Group B streptococcal colonization, rapid detection of, by a direct immunofluorescent antibody technique (Ryan and Barrett) (CLO), 993
Growth failure and Crohn disease, effect of disease, drug, and diet on whole body protein metabolism in adolescents with (Motil et al), 345
  growth hormone–dependent (Frazer et al), 12
  impairment, natural history and relationship to: Limited joint mobility in diabetes mellitus of childhood (Rosenbloom et al), 874
  linear, in young diabetic patient, effect of intensive insulin treatment on (Rudolf et al), 333
  retardation, intrauterine, mortality and morbidity in infants with (Starfield et al), 978

H

Haemophilus influenzae meningitis internal carotid artery occlusion in (McMenamin) (CLO), 723

Hair cysts, eruptive vellus, a benign condition (d'Aubermont et al) (CLO), 727
Hamartoma, hypothalamic, and precocious puberty, associated with solitary central maxillary incisor (Winter et al) (CLO), 965
HBsAg carrier, hepatoma in, seven years after perinatal infection (Beasley et al) (CLO), 83
Headaches, cluster, in childhood (Curless) (CLO), 393
Helmintic, anti-, new broad-spectrum, praziquantel, treatment of pulmonary paragonimiasis with (Spitalny et al) (CLO), 144
Hematemesis in an infant, hereditary hemorrhagic telangiectasia causing (Mestre and Andres) (CLO), 577
Hematologic abnormalities in adolescents who take oral contraceptive pills (Grace et al) (CLO), 771
and hepatic recovery, complete, in a patient with the chloramphenicol hepatitis-pancytopenia syndrome (Casale et al) (CLO), 1025
Hematuria, "benign," and familial nephritis, glomerular basement membrane attenuation in (Piel et al), 358
Hemiplegic migraine in childhood: Diagnostic and therapeutic aspects (Lai et al), 696
Hemoconcentration, peripheral, normal coagulation, and thrombocytopenia in neonatal polycythemia (Katz et al), 99
Hemodialysis reduces unbound phenytoin in plasma (Dodson and Loney) (CLO), 465
Hemoglobin, glycosylated, in diabetic children, factors affecting (Dorchy and Haumont) (Letter), 160
C–sickle cell disease, pneumococcal and other infections in children with (Topley et al), 176
S and *Salmonella* infections (Grendel et al) (CLO), 68
Hemoglobinuria, macroscopic, in neonate with massive blood aspiration (Saia and Gasparotto) (CLO), 446
Hemolysis, effects of dilution and age of blood on, in blood transfusion in neonate (Humphrey et al) (CLO), 605
Hemolytic uremic syndrome, outbreak of, associated with ingestion of fresh apple juice (Steele et al) (CLO), 963
Hemorrhage, intracerebral, reduction in incidence of, in transported preterm infant, continuing education in community hospital and (Lazzara et al) (CLO), 757
Hemorrhagic telangiectasia, hereditary, causing hematemesis in an infant (Mestre and Andres) (CLO), 577
Hemosiderosis, pulmonary, chronic meningitis, polyarthritis, and lymphadenitis (Fajardo et al) (CLO), 738
Heparin administration, continuous, effect on Intralipid clearing in very low-birth-weight infants (Zaidan et al) (CLO), 599
Heparinization, continuous, anticoagulant therapy by, in newborn and older infants (McDonald and Hathaway), 451
Hepatic and hematologic recovery, complete, in a patient with the chloramphenicol hepatitis-pancytopenia syndrome (Casale et al) (CLO), 1025
Hepatitis B and acute lymphoblastic leukemia (Maggiore et al) (Letter), 156; (Pastore et al) (Letter), 156; (Masera) (Reply), 156
(anicteric), virus subtype *adw*, papular acrodermatitis (Gianotti-Crosti syndrome) in child with (Schneider et al) (CLO), 219
antigen–negative infantile papular acrodermatitis and Epstein-Barr virus infection, possible association between (Konno et al) (CLO), 222
Hepatoma in HBsAg carrier seven years after perinatal infection (Beasley et al) (CLO), 83
Herpes simplex virus infection, congenital, initially resembling epidermolysis bullosa (Honig and Brown) (CLO), 958
neonatal (Kohl) (Letter), 794
Heterozygosity, definition of (Punnett) (Letter), 1036
Histidinemia, untreated, intellectual development in patients with (Tada et al) (CLO), 562
Holocarboxylase synthetase deficiency of early and late onset, lactic acidosis in biotin-responsive multipe carboxylase deficiency caused by (Sherwood et al), 546
Holoprosencephalic disorders, update on (Cohen), 865
Human chorionic gonadotropin (hCG), results of early treatment of cryptorchidism with (Garagorri et al), 923
Human milk constituents, changeable, correlated with milk intake in breast-fed babies (Dorea et al) (CLO), 80
effects of prematurity on the immunologic system in (Goldman et al), 901
after storage, persistence of cytomegalovirus in (Dworsky et al) (CLO), 440
Human teratogenic agents, detection of (Shepard), 810
Hydantoin syndrome, fetal: Current status (Hanson and Buehler), 816
Hydrochlorothiazide disposition in mother and her breast-fed infant (Miller et al) (CLO), 789
Hydrocortisone and betamethasone regimens, comparison of: Glucocorticoid activity in cord serum (Ballard and Liggins) (CLO), 468
Hydrogen, breath, in preterm infants: Correlation with changes in bacterial colonization of gastrointestinal tract (Stevenson et al) (CLO), 607
Hydrops fetalis, nonimmune, mucopolysaccharidosis VII (β-glucuronidase deficiency) presenting as (Nelson et al) (CLO), 574
Hyperammonemia and carnitine deficiency associated with valproic acid therapy (Ohtani et al), 782
Hyperbilirubinemia, evoked response abnormalities with (Lenhardt) (Letter), 1037
secondary to delayed absorption of intraperitoneal blood following intrauterine transfusion (Bowman) (Letter), 482; (Wright and Guthrie) (Reply), 483
Hypereosinophilic syndrome and lymphoblastic leukemia with extra C-group chromosome and q14+ marker (Chilcote et al), 57
Hyperglycemia, stress, symptoms of hypoglycemia, or asymptomatic glucosuria, prognosis of impaired glucose tolerance in children with (Rosenbloom and Hunt), 340
Hyperinsulinism, neonatal, after short-term maternal beta-sympathomimetic therapy (Procianoy and Pinheiro) (CLO), 612
Hypernatremia with oral rehydration, risk of (Sack et al) (Letter), 154; (Cleary et al) (Reply), 155
Hyperoxia and transposition of great vessels (Vizcarrondo et al) (Letter), 651; (Wells et al) (Letter), 651; (Batton et al) (Reply), 651
Hyperprolactinemia associated with advanced puberty in male (Slonim et al) (CLO), 236
Hypersplenism secondary to Gaucher disease, partial spenic embolization in management of (Thanopoulos and Frimas) (CLO), 740
Hypertension, control of, by selective embolization of stenotic intrarenal artery (Warren et al) (CLO), 743

Hypertension—Cont'd
severe, in adolescent girl (Elrod et al) (CLO), 409
use of continuous saralasin infusion to control (Ruley et al), 1013
Hyperthermic treatment of recurrent laryngeal papillomatosis (Roberts) (Letter), 158; (Leventhal) (Reply), 159
Hyperviscosity and polycythemia, cerebral blood flow in infants with: Effects of partial exchange transfusion with plasmanate (Rosenkrantz and Oh), 94
Hypnosis and nonhypnotic techniques for reduction of pain and anxiety during painful procedures in children and adolescents with cancer (Zeltzer and LeBaron), 1032
Hypoaldosteronism, pseudo-: Severe salt wasting in infancy caused by generalized mineralocorticoid unresponsiveness (Savage et al) (CLO), 239
Hypoglycemia, symptoms of, stress hyperglycemia, or asymptomatic glucosuria, prognosis of impaired glucose tolerance in children with (Rosenbloom and Hunt), 340
Hypoparathyroidism, transient congenital: Possible association with anomalies of pulmonary valve (Mallette et al), 928
Hypophosphatasia, infantile: Enzyme replacement therapy by intravenous infusion of alkaline phosphatase–rich plasma from patients with Paget bone disease (Whyte et al), 379
Hypoplasia, congenital pulmonary, lung function in infants with (Helms and Stocks), 918
red cell, hereditary transcobalamin II deficiency presenting as (Niebrugge et al) (CLO), 732
Hypoproteinemia without metabolic imbalance in breast milk–fed very LBW infants, human milk protein supplementation prevents (Rönnholm et al), 243
Hypothyroidism in congenital nephrotic syndrome (McLean et al) (CLO), 72
congenital: ^{123}I thyroidal uptake and scintigraphy (Heyman et al) (CLO), 571
neonatal, and galactorrhea (Macaron) (CLO), 576
primary congenital, in Spanish-surnamed infants in Southern California (Frasier et al) (Letter), 315

I

^{123}I thyroidal uptake and scintigraphy in congenital hypothyroidism (Heyman et al) (CLO), 571
IgE, parainfluenza virus–specific, role of, in the pathogenesis of croup and wheezing following infection (Welliver et al), 889
Imaging, ultrasound, in diagnosis of muscle disease (Heckmatt et al), 656
Immunity, rubella, in older children, teenagers, and young adults: Comparison of immunity in those previously immunized with those unimmunized (Robinson et al), 188
Immunizations: Current controversies (Fulginiti), 487
Immunodeficiency, enterocolitis-associated combined, reversal of, by plasma therapy (Cannon et al), 711
severe combined, prenatal diagnosis of (Durandy et al) (CLO), 995
Immunologic system in human milk, effects of prematurity on (Goldman et al), 901
Immunoreactivity, human β-endorphin-like, in perinatal/neonatal period (Moss et al) (CLO), 443
Immunosuppressed patients, vidarabine therapy of varicella in (Whitley et al), 125
Incest, children of (Baird and McGillivray), 854
Incisor, solitary central maxillary, associated with precocious puberty and hypothalamic hamartoma (Winter et al) (CLO), 965
Incubators, effects of forced convection of heated air on insensible water loss and heat loss in preterm infants in (Okken et al), 108
Indomethacin therapy in premature infants with patent ductus arteriosus, furosemide prevents renal side effects of (Yeh et al), 433
Infants, breast-fed, dietary protein–induced colitis in (Lake et al), 906
full-term asphyxiated, assessment of neurologic outcome in, using serial CK-BB isoenzyme measurement (Walsh et al), 988
Infant death syndrome, sudden, auditory brainstem responses in: Comparison of siblings, "near-miss," and normal infants (Kileny et al) (CLO), 225
and T_3 values (Lee et al) (Letter), 161; (Chacon and Tildon) (Reply), 162
Infantile spasms, prognosis of (Chevrie) (Letter), 650
Infarction, acute, of long bones in children with sickle cell anemia (Keeley and Buchanan), 170
Infection, *Brucella canis*, in 17-month-old child successfully treated with moxalactam (Tosi and Nelson) (CLO), 725
congenital cytomegalovirus, prevalence and importance of, in three different populations (Stagno et al), 897
Infusion, continuous saralasin, use of, to control hypertension (Ruley et al), 1013
intravenous, of alkaline phosphatase–rich plasma from patients with Paget bone disease, enzyme replacement therapy by: Infantile hypophosphatasia (Whyte et al), 379
Inhalation therapy, beclomethasone, adrenal function after (Konig and Goldstein) (Letter), 646; (Binkiewicz) (Reply), 647
Inosiplex treatment, influence on neurological disability of patients with subacute sclerosing panencephalitis (Du Rant et al), 288
Insulin plasma concentrations, motilin, human pancreatic polypeptide, and gastrin in fasted children (Janik et al), 51
-requiring diabetes before age 3 and after age 5, endocrine pancreatic response with onset of (Ternand et al), 36
treatment, intensive, effect on linear growth in young diabetic patient (Rudolf et al), 333
Intellectual development in patients with untreated histidinemia (Tada et al), (CLO), 562
Intracerebral hemorrhage, reduction in incidence of, in transported preterm infant, and continuing education in community hospital (Lazzara et al) (CLO), 757
Intracranial germinoma, endocrine aspects and tumoral markers in: Attempt to delineate diagnostic procedure in 14 patients (Pomarede et al), 374
Intralipid clearing in very low-birth-weight infants, effect of continuous heparin administration on (Zaidan et al) (CLO), 599
Intrauterine growth retardation, infants with, mortality and morbidity in (Starfield et al), 978
Intrauterine vascular occlusion, peromelia, ipsilateral subclavian atresia, coarctation, and aneurysms of the aorta resulting from (Robinow et al) (CLO), 84

^{191m}Iridium radionuclide angiography, low radiation: Detection and quantitation of left-to-right shunts in infants (Treves et al), 210
Iron-deficient infants, developmental deficits in: Effects of age and severity of iron lack (Lozoff et al) (CLO), 948
deficiency and anemia in VLBW infants, prevention of (Siimes and Järvenpää) (CLO), 277
saturation, effect on bacteriostasis of human serum: In vivo does not correlate with in vitro saturation (Baltimore et al), 519
stores in adolescents, serum ferritin as measure of (Bailey et al) (CLO), 774
tablets, surgical removal of (Barsky) (Letter), 1038; (Venturelli) (Reply), 1038
Islet cell antibodies and coxsackie B_4 infection three years before overt diabetes (Asplin et al) (CLO), 398
Isoenzyme measurement, serial CK-BB, in assessment of neurologic outcome in full-term asphyxiated infants using (Walsh et al), 988

J

Jaundice, breast-milk (Hernell) (Letter), 311; (Poland) (Reply), 312
meter: Evaluation of new guidelines (Goldman et al), 253
Jejunal resection in a premature infant, limited decreased vitamin D absorption following (Markestad et al) (CLO), 1001
Joint mobility, limited, in diabetes mellitus of childhood: Natural history and relationship to growth impairment (Rosenbloom et al), 874
Journal, after 50 years (Garfunkel) (Editor's column), 62
abbreviations in (Silver) (Letter), 314; (Garfunkel) (Reply), 315

K

Kawasaki syndrome, epidemics of (Jacobs) (Letter), 649; (Dean) (Reply), 650
Krabbe disease, prenatal diagnosis of: Galactosylceramide metabolism in cultured amniotic fluid cells (Kudoh and Wenger) (CLO), 754

L

Lactase deficiency, congenital, use of lactose-hydrolyzed human milk in (Similä et al) (CLO), 584
Lactating adolescent mothers, decreased bone mineral status in (Chan et al), 767
loss of bone mineral content in (Greer and Garn) (Editor's column), 718
Lactic acidosis in biotin-responsive multiple carboxylase deficiency caused by holocarboxylase synthetase deficiency of early and late onset (Sherwood et al), 546
Lactose-hydrolyzed human milk in congenital lactase deficiency, use of (Similä et al) (CLO), 584
Laryngeal papillomatosis, recurrent, hyperthermic treatment of (Roberts) (Letter), 158; (Leventhal) (Reply), 159
Leucine metabolism, inherited 3-methylglutaconic aciduria in two brothers another defect of (Duran et al), 551
Leukemia, acute lymphoblastic, and hepatitis B (Maggiore et al) (Letter), 156; (Pastore et al) (Letter), 156; (Masera) (Reply), 156
treated without central nervous system radiation, immediate and long-term posttherapy neuropsychologic performance in children with (Tamaroff et al), 524
childhood management of (Kremens) (Letter), 312; (Meadows and D'Angio) (Letter), 312; (Sallan et al) (Reply), 313
lymphoblastic, and hypereosinophilic syndrome with extra C-group chromosome and q14+ marker (Chilcote et al), 57
testicular, diagnosis of (Masera et al) (Letter), 314
Leukemoid reaction associated with antenatal dexamethasone administration (Anday and Harris) (CLO), 614
Leukocyte function in healthy neonates following vaginal and cesarean section deliveries (Frazier et al), 269
Lidocaine, viscous, prolonged seizures associated with use of (Rothstein et al) (CLO), 461
Ligation of ductus arteriosus in preterm infants, physiologic changes associated with (Marshall et al), 749
Limb defects, vascular pathogenesis of. I. Radial artery anatomy in radial aplasia (Van Allen et al), 832
transverse reduction (Hoyme et al), 839
Lung expansion at birth (Milner and Vyas), 879
Lung function in infants with congenital pulmonary hypoplasia (Helms and Stocks), 918
Lupus nephritis, diffuse proliferative, pulse methylprednisolone therapy in (Baron et al), 137
Lymphadenitis, chronic meningitis, polyarthritis, and pulmonary hemosiderosis (Fajardo et al) (CLO), 738
Lymphoblastic leukemia, acute, and hepatitis B (Maggiore et al) (Letter), 156; (Pastore et al) (Letter), 156; (Masera) (Reply), 156
treated without central nervous system radiation, immediate and long-term posttherapy neuropsychologic performance in children with (Tamaroff et al), 524
and hypereosinophilic syndrome with extra C-group chromosome and q14+ marker (Chilcote et al), 57

M

Magnesium, zinc, copper, and calcium in human milk (Fransson and Lönnerdal), 504
Malaria, congenital: Report of four cases and review (Quinn et al) (CLO), 229
Malformation, dysplasia, and neuromuscular syndromes, Robin sequence as consequence of (Carey et al), 858
syndrome, new, of postnatal dwarfism, mental retardation, unusual face, and protruding ears: Niikawa-Kuroki syndrome (Koutras and Fisher) (CLO), 417
Malignancies, usefulness of bone marrow imaging in (Oseas et al), 206
Marrow, bone, aspiration with 22-gauge spinal needle (Urban et al) (Letter), 1036
imaging in malignancies, usefulness of (Oseas et al), 206
Mastoiditis, complications of, with special emphasis on venous sinus thrombosis (Venezio et al), 509
Maturation, different, of neutrophil chemotaxis in term and preterm newborn infants (Sacchi et al) (CLO), 273
and follow-up: Auditory brainstem responses in preterm neonates (Roberts et al), 257

Measles, reported, in persons immunologically primed by prior vaccination (Smith et al) (CLO), 391
Measles virus panniculitis subsequent to vaccine administration (Buck et al), 366
Mechanical ventilation and spontaneous breathing in newborn infants, cranial blood volume changes during (Leahy et al), 984
Medullary thyroid carcinoma, hereditary, age-related probability of development of (Gagel et al), 941
Membrane attenuation, glomerular basement, in familial nephritis and "benign" hematuria (Piel et al), 358
IgG deposition, linear tubular basement, and tubular dysfunction, membranous glomerulonephropathy with (Wood et al) (CLO), 414
Membranous glomerulopathy, idiopathic, in Canadian children: Clinicopathologic study (Latham et al), 682
nephropathy, idiopathic, in children (Ramirez et al), 677
Meningitis, bacterial, decreased erythrocyte deformability in anemia of (Sills et al) (CLO), 395
chronic, polyarthritis, lymphadenitis, and pulmonary hemosiderosis (Fajardo et al) (CLO), 738
Haemophilus influenzae, internal carotid artery occlusion in (McMenamin) (CLO), 723
Mental retardation, postnatal dwarfism, unusual face, and protruding ears, new malformation syndrome of: Niikawa-Kuroki syndrome (Koutras and Fisher) (CLO), 417
Mesangial cellularity in steroid-responsive nephrotic syndrome (Waldherr et al) (Letter), 794
Mesodermal origin, possible, for axial dysraphic disorders (Jones et al), 845
Metabolic imbalance in breast milk–fed very LBW infants, human milk protein supplementation prevents hypoproteinemia without (Rönnholm et al), 243
Metabolism, galactosylceramide, in cultured amniotic fluid cells: Prenatal diagnosis of Krabbe disease (Kudoh and Wenger) (CLO), 754
leucine, inherited 3-methylglutaconic aciduria in two brothers another defect of (Duran et al), 551
and renal elimination of furosemide in newborn infant (Aranda et al), 777
whole body protein, effect of disease, drug, and diet on adolescents with Crohn disease and growth failure (Motil et al), 345
Metaproterenol and theophylline, orally administered, compared in control of chronic asthma (Dusdieker et al), 281
Methadone-maintained mothers, children of: Follow-up to 18 months of age (Rosen and Johnson), 192
outcome studies: Is it more than methadone? (Aylward) (Editor's column), 214
Methylprednisolone therapy, pulse, in diffuse proliferative lupus nephritis (Barron et al), 137
Metoclopramide, protein binding of (Gourley et al) (CLO), 631
Metronidazole elimination in premature infants, effect of prenatal exposure to betamethasone (Doyle et al) (Letter), 647
Microcapillary measurements compared with venipuncture blood counts in screening for anemia in one-year-old infants (Thomas and Collins), 32
Microcephaly, autosomal dominant (Rossi and Battilana) (Letter), 481; (Haslam) (Reply), 482
Migraine, hemiplegic, in childhood: Diagnostic and therapeutic aspects (Lai et al), 696
Milk, human, changeable constituents correlated with milk intake in breast-fed babies (Dorea et al) (CLO), 80
or formula, plasma amino acids in preterm infants after feed of (Tikanoja et al), 248
jaundice (Hernell) (Letter), 311; (Poland) (Reply), 312
lactose-hydrolyzed, in congenital lactase deficiency, use of (Similä et al) (CLO), 584
protein supplementation, prevents hypoproteinemia without metabolic imbalance in breast milk–fed very LBW infants (Rönnholm et al), 243
after storage, persistence of cytomegalovirus in (Dworsky et al) (CLO), 440
zinc, copper, calcium, and magnesium in (Fransson and Lönnerdal), 504
Mineral content, bone, loss of, in lactating adolescents (Greer and Garn) (Editor's column), 718
status, bone, decreased in lactating adolescent mothers (Chan et al), 767
Mineralocorticoid unresponsiveness, generalized, severe salt wasting in infancy caused by: Pseudohypoaldosteronism (Savage et al) (CLO), 239
Monosomy, partial, of chromosome 22, association of DiGeorge anomalad with (Kelley et al), 197
Morbidity and mortality in infants with intrauterine growth retardation (Starfield et al), 978
Morphogenesis of muscle tendon insertions, determinants in (Graham et al), 825
Mortality risk, neonatal, in relation to birth weight and gestational age: Update (Koops et al), 969
Motilin, human pancreatic polypeptide, gastrin, and insulin plasma concentrations in fasted children (Janik et al), 51
Moxalactam, *Brucella canis* infection in 17-month-old child successfully treated with (Tosi and Nelson) (CLO), 725
penetration in cerebrospinal fluid (Landesman) (Letter), 160; (Thirumoorthi et al) (Reply), 161
Mucocutaneous lymph node syndrome, metallic mercury vapor poisoning simulating (Adler et al) (CLO), 967
Mucopolysaccharidosis VII (β-glucuronidase deficiency) presenting as nonimmune hydrops fetalis (Nelson et al) (CLO), 574
Muscle disease, ultrasound imaging in diagnosis of (Heckmatt et al), 656
Muscle tendon insertions, determinants in morphogenesis of (Graham et al), 825
Muscular dystrophy, Fukuyama-type congenital (McMenamin et al) (CLO), 580

N

Needle, 22-gauge spinal, bone marrow aspiration with (Urban et al) (Letter), 1036
Neonate, fluid therapy in, concepts in transition (Arant) (Editor's Column), 387
Neoplasms, thyroid, diagnostic X-irradiation as possible etiologic agent in (Pillay et al) (CLO), 566
Nephritis, diffuse proliferative lupus, pulse methylprednisolone therapy in (Barron et al), 137
familial, and "benign" hematuria, glomerular basement membrane attenuation in (Piel et al), 358
Nephrogenic diabetes insipidus, tolmetin sodium in management of (Chevalier and Rogol) (CLO), 787

Nephropathy, idiopathic membranous, in children (Ramirez et al), 677
Nephrotic syndrome, congenital, hypothyroidism in (McLean et al) (CLO), 72
idiopathic, focal segmental glomerulosclerosis with: Three types of clinical response (Arbus et al), 40
minimal change, early identification of frequent relapsers among children with (ISKDC), 514
steroid-responsive, late development of chronic renal failure in (Nash et al) (CLO), 411
mesangial cellularity in (Waldherr et al) (Letter), 794
Neural tube defects: Can they be caused by maternal alcohol ingestion? (Friedman) (CLO), 232
Neuroblastoma, disseminated, prolonged survival of a patient with (Fiorillo et al) (CLO), 564
Neurological disability of patients with subacute sclerosing panencephalitis, influence of inosiplex treatment on (DuRant et al), 288
Neuromuscular, malformation, and dysplasia syndromes, Robin sequence as consequence of (Carey et al), 858
Neuropsychologic performance, immediate and long-term post-therapy, in children with acute lymphoblastic leukemia treated without central nervous system radiation (Tamaroff et al), 524
Neurotoxicity of L-asparaginase revisited (White et al) (Letter), 484
Neutrophil chemotaxis in term and preterm newborn infants, different maturation of (Sacchi et al) (CLO), 273
Neutrophils deficient in cell-associated glycoprotein, severe recurrent bacterial infections associated with defective adherence and chemotaxis in two patients with (Bowen et al), 932
Newborn infant, initiation of chloramphenicol therapy in (Rajchgot et al), 1018
Niikawa-Kuroki syndrome: New malformation syndrome of postnatal dwarfism, mental retardation, unusual face, and protruding ears (Koutras and Fisher) (CLO), 417
Nosocomial infection in nursery, cause of: Rotavirus (Rodriguez et al) (CLO), 274
Nutrition, total parenteral, comparison of morbidity with and without, in children requiring chemotherapy and abdominal radiation (Ghavimi et al), 524
Nystatin, topical, in candidal diaper dermatitis: A double-blind placebo-controlled comparison to topical plus oral nystatin (Munz et al) (CLO), 1022

O

Obesity, childhood, another skeletal disorder associated with Blount disease (tibia vara) (Dietz et al) (CLO), 735
Occlusion, internal carotid artery, in *Haemophilus influenzae* meningitis (McMenamin) (CLO), 723
intrauterine vascular, peromelia, ipsilateral subclavian atresia, coarctation, and aneurysms of aorta resulting from (Robinow et al) (CLO), 84
Orbital pseudotumor and Crohn disease (Camfield et al) (Letter), 157; (Young) (Reply), 158
Otitis media, acute, antihistamine-decongestant in conjunction with anti-infective drug in treating (Moran et al), 132
double-blind multicenter comparison of cyclacillin and amoxicillin for treatment of (McLinn et al), 617
Otitis media, acute—Cont'd
role of respiratory syncytial virus and other viral pathogens in (Klein et al), 16
and respiratory syncytial virus with effusion (Teele) (Editor's column), 61

P

Pacemaker system, patient-activated radio frequency: Therapy for recurrent ventricular tachycardia (Dunnigan et al) (CLO), 403
Paget bone disease, enzyme replacement therapy by intravenous infusion of alkaline phosphatase–rich plasma from patients with: Infantile hypophosphatasia (Whyte et al), 379
Pain and anxiety, hypnosis and nonhypnotic techniques for reduction of, during painful procedures in children and adolescents with cancer (Zeltzer and LeBaron), 1032
Pancreatic polypeptide (human), motilin, gastrin, and insulin plasma concentrations in fasted children (Janik et al), 51
response, endocrine, with onset of insulin-requiring diabetes before age 3 and after age 5 (Ternand et al), 36
Pancuronium, effect on bilirubin-albumin binding (Robertson and Karp) (CLO), 463
Panencephalitis, subacute sclerosing, influence of inosiplex treatment on neurological disability of patients with (Du Rant et al), 288
Panniculitis, measles virus, subsequent to vaccine administration (Buck et al), 366
Papillomatosis, recurrent laryngeal, hyperthermic treatment of (Roberts) (Letter), 158; (Leventhal) (Reply), 159
Papular acrodermatitis (Gianotti-Crosti syndrome) in child with anicteric hepatitis B, virus subtype *adw* (Schneider et al) (CLO), 219
Paragonimiasis, pulmonary, treated with new broad-spectrum antihelmintic, praziquantel (Spitalny et al) (CLO), 144
Parainfluenza virus infection in childhood, natural history of (Welliver et al), 180
–specific IgE, role of, in the pathogenesis of croup and wheezing following infection (Welliver et al), 889
Parenteral nutrition, total, comparison of morbidity with and without, in children requiring chemotherapy and abdominal radiation (Ghavimi et al), 524
Pathophysiology of constipation (Abrahamian and Lloyd-Still) (Letter), 795; (Loening-Baucke) (Reply), 796
Pediatrics, The Journal of, the first 50 years (Nelson), 1
review of the first 50 years (Hayden and Saulsbury), 5
Perinatal infection, hepatoma in HBsAg carrier 7 years after (Beasley et al) (CLO), 83
Periosteal, sub-, abscesses in children, association of septic thrombophlebitis with (Jupiter et al), 690
Peromelia, ipsilateral subclavian atresia, coarctation, and aneurysms of aorta resulting form intrauterine vascular occlusion (Robinow et al) (CLO), 84
Pertussis–diphtheria–tetanus toxoids vaccination and sudden infant deaths in Tennessee (Bernier et al) (CLO), 419
Peutz-Jeghers syndrome, feminizing sex cord tumor with annular tubules in a boy with (Dubois et al) (CLO), 568

Pharmacokinetics, applied, in acute exacerbations of *Pseudomonas aeruginosa* pneumonia in cystic fibrosis (Fraser et al) (Letter), 792; (Kelly et al) (Reply), 793; (Kearns et al) (Reply), 793
Phenytoin, unbound, in plasma, hemodialysis reduces (Dodson and Loney) (CLO), 465
Physical evaluations, preschool (Bradford) (Letter), 317; (Utter) (Letter), 318; (Welch) (Reply), 317; (Silber) (Reply), 318; (Garfunkel) (Reply), 318
Pills, oral contraceptive, hematologic abnormalities in adolescents who take (Grace et al) (CLO), 771
Plasma, alkaline phosphatase–rich, from patients with Paget bone disease, enzyme replacement therapy by intravenous infusion of: Infantile hypophosphatasia (Whyte et al), 379
hemodialysis reduces unbound phenytoin in (Dodson and Loney) (CLO), 465
therapy, reversal of enterocolitis-associated combined immunodeficiency by (Cannon et al), 711
Plasmanate, effects of partial exchange transfusion with: Cerebral blood flow velocity in infants with polycythemia and hyperviscosity (Rosenkrantz and Oh), 94
Platelet volume, whole blood, in newborn infants (Kipper and Sieger) (CLO), 763
Pneumatosis intestinalis in pediatric renal transplant patient (Wall et al) (CLO), 745
Pneumococcal and other infections in children with sickle cell–hemoglobin C disease (Topley et al), 176
Pneumonia, *Pseudomonas aeruginosa*, in cystic fibrosis, applied pharmacokinetics in acute exacerbations of (Fraser et al) (Letter), 792; (Kelly et al) (Reply), 793; (Kearns et al) (Reply), 793
Poisoning, metallic mercury vapor, simulating mucocutaneous lymph node syndrome (Adler et al) (CLO), 967
Polyarthritis, chronic meningitis, lymphadenitis, and pulmonary hemosiderosis (Fajardo et al) (CLO), 738
Polycythemia and hyperviscosity, cerebral blood flow in infants with: Effects of partial exchange transfusion with plasmanate (Rosenkrantz and Oh), 94
neonatal, normal coagulation findings, thrombocytopenia, and peripheral hemoconcentration in (Katz et al), 99
Polycythemic neonates, estimated blood volumes as function of birth weight (Rawlings et al), 594
Polypeptide (human pancreatic), motilin, gastrin, and insulin plasma concentrations in fasted children (Janik et al), 51
Praziquantel, new broad-spectrum antihelmintic, treatment of pulmonary paragonimiasis with (Spitalny et al) (CLO), 144
Premature infants, effect of sodium chloride supplementation on postnatal development of plasma prostaglandin E and $F_{2\alpha}$ values in (Ertl et al) (CLO), 761
Prematurity, effects of, on the immunologic system in human milk (Goldman et al), 901
Preschool physical evaluations (Bradford) (Letter), 317; (Utter) (Letter), 318; (Welch) (Reply), 318; (Silber) (Reply), 318; (Garfunkel) (Reply), 318
Prolactinemia, hyper-, associated with advanced puberty in male (Slonim et al) (CLO), 236
Prostaglandin E and $F_{2\alpha}$ values, plasma, in premature infants, effect of sodium chloride supplementation on (Ertl et al) (CLO), 761
Prostaglandin synthetase inhibitor in Caffey disease (Heyman et al) (Letter), 314
Protein binding of metoclopramide (Gourley et al) (CLO), 631
metabolism, whole body, effect of disease, drug, and diet on adolescents with Crohn disease and growth failure (Motil et al), 345
serum C-reactive, and problems of newborn infants (Ainbender et al) (CLO), 438
supplementation, human milk, prevents hypoproteinemia without metabolic imbalance in breast milk–fed, very LBW infants (Rönnholm et al), 243
Proteinemia, hypo-, without metabolic imbalance in breast milk–fed, very LBW infants, human milk protein supplementation prevents (Rönnholm et al), 243
Proteinuria, isolated, analysis of school-age population (Vehaskari and Rapola), 661
Pseudohypoaldosteronism: Severe salt wasting in infancy caused by generalized mineralocorticoid unresponsiveness (Savage et al) (CLO), 239
Pseudomonas aeruginosa communicability in cystic fibrosis summer camp (Speert et al) (CLO), 227
pneumonia in cystic fibrosis, applied pharmacokinetics in acute exacerbations of (Fraser et al) (Letter), 792; (Kelly et al) (Reply), 793; (Kearns et al) (Reply), 793
Pseudopuberty, benign, adrenarche as a cause of, in boys (Rosenfield et al), 1005
Pseudotumor, orbital, and Crohn disease (Camfield et al) (Letter), 157; (Young) (Reply), 158
Psychosocial adjustment of children with cystic fibrosis, family functioning as a mediating variable affecting (Lewis and Khaw), 636
Psychosocial aspects of constitutional short stature: Social competence, behavior problems, self-esteem, and family functioning (Gordon et al), 477
Puberty, advanced in male, hyperprolactinemia associated with (Slonim et al) (CLO), 236
precocious, and hypothalamic hamartoma, solitary central maxillary incisor associated with (Winter et al) (CLO), 965
Pulmonary embolization, fatal intraoperative, of Wilms tumor (Shurin et al) (CLO), 559
Pulmonary function changes during diuretic phase of respiratory distress syndrome (Heaf et al), 103
of children with asthma, effect of antihistamine on (Lewiston et al) (CLO), 458
hemosiderosis, chronic meningitis, polyarthritis, and lymphadenitis (Fajardo et al) (CLO), 738
hypoplasia, congenital, lung function in infants with (Helms and Stocks), 918
paragonimiasis treated with new broad-spectrum antihelmintic, praziquantel (Spitalny et al) (CLO), 144
valve, anomalies of, possible association with transient congenital hypoparathyroidism (Mallette et al), 928
Pulse methylprednisolone therapy in diffuse proliferative lupus nephritis (Barron et al), 137

Q

q14+ Marker and extra C-group chromosome, hypereosinophic syndrome and lymphoblastic leukemia with (Chilcote et al), 57

R

Radiation, abdominal, and chemotherapy, comparison of morbidity in children requiring, with and without total parenteral nutrition (Ghavimi et al), 524
central nervous system, immediate and long-term posttherapy neuropsychologic performance in children with acute lymphoblastic leukemia treated without (Tamaroff et al), 524
and chemical hazards to children: Highlights of a meeting (Miller), 495
effects: Highlights of a meeting (Miller), 887
low, ^{191m}iridium radionuclide angiography, detection and quantitation of left-to-right shunts in infants (Treves et al), 210
Radionuclide angiography in evaluation of ductal shunts in preterm infants (Vick et al), 264
low radiation ^{191m}iridium: Detection and quantitation of left-to-right shunts in infants (Treves et al), 210
Rash, diaper, incidence of, when using cloth and disposable diapers (Stein) (CLO), 721
Reflux, gastroesophageal, and apnea (Leape et al) (Letter), 481
vesicoureteral, re obstructive uropathy (Holland and Wyatt) (Letter), 485; (Warshaw and Fine) (Reply), 485
Rehydration, oral, for diarrhea (Finberg et al), 497
risk of hypernatremia with (Sack et al) (Letter), 154; (Cleary et al) (Reply), 155
Relapsers, frequent, early identification among children with minimal change nephrotic syndrome (ISKDC), 514
Renal elimination and metabolism of furosemide in newborn infant (Aranda et al), 777
failure, chronic, late development in steroid-responsive nephrotic syndrome (Nash et al) (CLO), 411
side effects of indomethacin therapy in premature infants with patent ductus arteriosus, furosemide prevents (Yeh et al), 433
transplant patient, pediatric, pneumatosis intestinalis in (Wall et al) (CLO), 745
tubular acidosis, primary distal, treated since infancy, natural history of (Rodriguez-Soriano et al), 669
Respiratory distress syndrome, adult, in children (Pfenninger et al), 352
changes in pulmonary function during diuretic phase of (Heaf et al), 103
Respiratory syncytial virus infection and apnea in infants, association of (Anas et al) (CLO), 65
and other viral pathogens in acute otitis media, role of (Klein et al), 16
and otitis media with effusion (Teele) (Editor's column), 61
Responses, arousal, in near-miss sudden infant death syndrome and in normal infants (McCulloch et al), 911
Retardation, mental, postnatal dwarfism, unusual face, and protruding ears, new malformation syndrome of: Niikawa-Kuroki syndrome (Koutras and Fisher) (CLO), 417
Rights of emotionally abused children (Fost) (Editor's column), 215
Robin sequence as consequence of malformation, dysplasia, and neuromuscular syndromes (Carey et al), 858
Rotavirus: Cause of nosocomial infection in nursery (Rodriguez et al) (CLO), 274
Rubella immunity in older children, teenagers, and young adults: Comparison of immunity in those previously immunized with those unimmunized (Robinson et al), 188

S

Salmonella infections and hemoglobin S (Gendrel et al) (CLO), 68
Salt wasting, severe, in infancy, caused by generalized mineralocorticoid unresponsiveness: Pseudohypoaldosteronism (Savage et al) (CLO), 239
Saralasin infusion, continuous, use of to control hypertension (Ruley et al), 1013
Scalp vertex aplasia cutis, origin of (Stephan et al), 850
School-age population, analysis of: Isolated proteinuria (Vehaskari and Rapola), 661
Scintigraphy and ^{123}I thyroidal uptake in congenital hypothyroidism (Heyman et al) (CLO), 571
Scleredema: An unusual presentation with edema limited to scalp, upper face, and orbits (Burke et al) (CLO), 960
Sclerosing panencephalitis, subacute, influence of inosiplex treatment on neurological disability of patients with (Du Rant et al), 288
Screening for anemia in one-year-old infants, comparison of venipuncture blood counts with microcapillary measurements in (Thomas and Collins), 32
for group A streptococcus using anaerobic primary plate technique (Beerman and Goldblatt) (CLO), 70
Seizures in 15-year-old girl (Hlady et al), 641
nonfebrile, after febrile convulsions: Possible role of chronic cytomegalovirus infection (Iannetti et al), 27
prolonged, associated with use of viscous lidocaine (Rothstein et al) (CLO), 461
Self-esteem, family functioning, social competence, and behavior problems: Psychosocial aspects of constitutional short stature (Gordon et al), 477
Septicemia, coagulase-negative staphylococcal, experience in newborn intensive care unit (Munson et al) (CLO), 602
Sex cord tumor, feminizing, with annular tubules in a boy with Peutz-Jeghers syndrome (Dubois et al) (CLO), 568
Shock in pediatric patient. Part I (Perkin and Levin), 163
Part II. Therapy (Perkin and Levin), 319
Shunts, ductal, in preterm infants, radionuclide angiography in evaluation of (Vick et al), 264
left-to-right, in infants, detection and quantitation of: Low radiation ^{191m}iridium radionuclide angiography (Treves et al), 210
Siblings, "near-miss," and normal infants, comparison of: Auditory brainstem responses in sudden infant death syndrome (Kileny et al) (CLO), 225
Sickle cell anemia, acute infarction of long bones in children with (Keeley and Buchanan), 170
–hemoglobin C disease, pneumococcal and other infections in children with (Topley et al), 176
SIDS; *see* Sudden infant death syndrome
Sjogren-Larsson syndrome, prenatal diagnosis of (Kousseff et al) (CLO), 998
Skeletal disorder, another, associated with childhood obesity: Blount disease (tibia vara) (Dietz et al) (CLO), 735
Sleep apnea, sleep duration, and infant temperament (Weissbluth et al) (CLO), 307
Social competence, behavior problems, self-esteem, and family functioning: Psychosocial aspects of constitutional short stature (Gordon et al), 477
Sodium chloride supplementation, effect of, on postnatal development of plasma prostaglandin E and $F_{2\alpha}$ values in premature infants (Ertl et al) (CLO), 761

Sodium intake and water, relationship to and effect on outcome: Water balance in very low-birth-weight infants (Lorenz et al), 423
Spasms, infantile, primary, efficacy of corticotropin in (Lerman and Kivity) (CLO), 294
prognosis of (Chevrie) (Letter), 650
Spinal needle, 22-gauge, bone marrow aspiration with (Urban et al) (Letter), 1036
Splenic embolization, partial, in management of hypersplenism secondary to Gaucher disease (Thanopoulos and Frimas) (CLO), 740
Staphylococcal septicemia, coagulase-negative: Experience in newborn intensive care unit (Munson et al) (CLO), 602
Stature, constitutional short, psychosocial aspects of: Social competence, behavior problems, self-esteem, and family functioning (Gordon et al), 477
Steroid-responsive nephrotic syndrome, late development of chronic renal failure in (Nash et al) (CLO), 411
mesangial cellularity in (Waldherr et al) (Letter), 794
Storage disease, type I glycogen, glucose production in (Kalhan et al) (Letter), 159; (Greene) (Reply), 160
Streptococcus, group A, screening using anaerobic primary plate technique (Beerman and Goldblatt) (CLO), 70
Subperiosteal abscesses in children, association of septic thrombophlebitis with (Jupiter et al), 690
Sudden infant death syndrome; *see also* Death syndrome; Infant death syndrome
auditory brainstem responses in: Comparison of siblings, "near-miss," and normal infants (Kileny et al) (CLO), 225
near-miss, and normal infants, arousal responses in (McCulloch et al), 911
and T_3 values (Lee et al) (Letter), 161; (Chacon and Tilden) (Reply), 162
Suicide, adolescent, and pediatrician (Hodgman and Roberts), 118
Syncytial virus infection, respiratory, and apnea in infants, association of (Anas et al) (CLO), 65
respiratory, and other viral pathogens in acute otitis media, role of (Klein et al), 16
and otitis media with effusion (Teele) (Editor's column), 61
Synthetase inhibitor, prostaglandin, in Caffey disease (Heyman et al) (Letter), 314

T

Tachycardia, recurrent ventricular, therapy for: Patient-activated radio frequency pacemaker system (Dunnigan et al) (CLO), 403
Tegretol (carbamazepine), adverse behavioral reactions in children treated with (Silverstein et al), 785
Telangiectasia, hereditary hemorrhagic, causing hematemesis in an infant (Mestre and Andres) (CLO), 577
Temperament, infant, sleep duration, and sleep apnea (Weissbluth et al) (CLO), 307
Tendon insertions, muscle, determinants in morphogenesis of (Graham et al), 825
Tension: Basis of umbilical cord growth (Miller et al), 844
Teratogenesis, human ethanol, new primate model for binge drinking and its relevance to: Fetal alcohol syndrome (Clarren and Bowden), 819
Teratogenic agents, human, detection of (Shepard), 810
Testicular leukemia, diagnosis of (Masera et al) (Letter), 314
volumes of adolescents (Daniel et al) (CLO), 1010
Tetanus toxoids–diphtheria–pertussis vaccination and sudden infant deaths in Tennessee (Bernier et al) (CLO), 419
Theophylline and metaproterenol, orally administered, compared in control of chronic asthma (Dusdieker et al), 281
orally administered, and albuterol by aerosol, in asthmatic children (Lee and Evans) (CLO), 632
products, bioavailability of (Levitt and Kann) (Letter), 483; (Weinberger) (Reply), 484
Therapy, chloramphenicol, initiation of, in the newborn infant (Rajchgot et al), 1018
Thrombocytopenia, normal coagulation findings, and peripheral hemoconcentration in neonatal polycythemia (Katz et al), 99
Thrombophlebitis, septic, association of, with subperiosteal abscesses in children (Jupiter et al), 690
Thromboplastin times, prolonged partial, in newborn infants, simple screening test for evaluating (Andrew and Karpatkin) (CLO), 610
Thrombosis, deep vein, in association with circulating endogenous anticoagulant (MacKay et al) (CLO), 75
venous sinus, complications of mastoiditis with special emphasis on (Venezio et al), 509
Thyroid carcinoma, hereditary medullary, age-related probability of development of (Gagel et al), 941
neoplasms, diagnostic X-irradiation as possible etiologic agent in (Pillay et al) (CLO), 566
^{123}I uptake and scintigraphy in congenital hypothyroidism (Heyman et al) (CLO), 571
Thyroxine levels, serum free, in term, premature, and sick infants (Wilson et al), 113
Tibia vara (Blount disease): Another skeletal disorder associated with childhood obesity (Dietz et al) (CLO), 735
Timely topics (Garfunkel) (Commentary), 419
Tolmetin sodium in management of nephrogenic diabetes insipidus (Chevalier and Rogol) (CLO), 787
Toxicity, acute chloramphenicol, exchange transfusion in (Chavers et al), (Letter), 652
Transcobalamin II deficiency, hereditary, presenting as red cell hypoplasia (Niebrugge et al) (CLO), 732
Transfusion, blood, in neonate: Effects of dilution and age of blood on hemolysis (Humphrey et al) (CLO), 605
exchange, in acute chloramphenicol toxicity (Chavers et al) (Letter), 652
intrauterine, hyperbilirubinemia secondary to delayed absorption of intraperitoneal blood following (Bowman) (Letter), 482; (Wright and Guthrie) (Reply), 483
partial exchange, with plasmanate, effects of: Cerebral blood flow velocity in infants with polycythemia and hyperviscosity (Rosenkrantz and Oh), 94
Transplant patient, pediatric renal, pneumatosis intestinalis in (Wall et al) (CLO), 745
Transported preterm infant, reduction in incidence of intracerebral hemorrhage in, and continuing education in community hospital (Lazzara et al) (CLO), 757
Transposition of great vessels and hyperoxia Vizcarrondo et al) (Letter), 651; (Wells et al) (Letter), 651; (Batton et al) (Reply), 651
Triiodothyronine values, serum, and SIDS (Lee et al) (Letter), 161; (Chacon and Tildon) (Reply), 162
Tube defects, neural: Can they be caused by maternal alcohol ingestion? (Friedman) (CLO), 232

Tubular acidosis, primary distal renal, treated since infancy, natural history of (Rodriguez-Soriano et al), 669
dysfunction and linear tubular basement membrane IgG deposition, membranous glomerulonephropathy with (Wood et al) (CLO), 414
Tumor, feminizing sex cord, with annular tubules in a boy with Peutz-Jeghers syndrome (Dubois et al) (CLO), 568
Tumoral markers and endocrine aspects in intracranial germinoma: Attempt to delineate diagnostic procedure in 14 patients (Pomarede et al), 374

U

Ultrasound imaging in diagnosis of muscle disease (Heckmatt et al), 656
Umbilical cord growth, tension as basis of (Miller et al), 844
Urinary tract infections and urinary tract abnormalities, short-term therapy of (Khan et al) (Letter), 315; (Shapiro and Wald) (Reply), 316; (Lohr et al) (Reply), 316
short treatment of (Godard and Girardet) (Letter), 649
Uropathy, obstructive, re vesicoureteral reflux (Holland and Wyatt) (Letter), 485; (Warshaw and Fine) (Reply), 485

V

Vaccination, diphtheria–tetanus toxoids–pertussis, and sudden infant deaths in Tennessee (Bernier et al) (CLO), 419
prior, reported measles in persons immunologically primed by (Smith et al) (CLO), 391
Vaccine administration, measles virus panniculitis subsequent to (Buck et al), 366
Vaginal and cesarean section deliveries, leukocyte function in healthy neonates following (Frazier et al), 269
Valproate concentrations, serum free, and valproate clearance, effect of acetylsalicylic acid on (Farrell et al) (CLO), 142
Valproic acid therapy, carnitine deficiency and hyperammonemia associated with (Ohtani et al), 782
Valve, pulmonary, anomalies of, possible association with transient congenital hypoparathyroidism (Mallette et al), 928
Varicella in immunosuppressed patients, vidarabine therapy of (Whitley et al), 125
Vascular occlusion, intrauterine, peromelia, ipsilateral subclavian atresia, coarctation, and aneurysms of the aorta resulting from (Robinow et al) (CLO), 84
Vascular pathogenesis of limb defects. I. Radial artery anatomy in radial aplasia (Van Allen et al), 832
transverse reduction (Hoyme et al), 839
Vein thrombosis, deep, in association with circulating endogenous anticoagulant (MacKay et al) (CLO), 75
Vellus hair cysts, eruptive, a benign condition (d'Aubermont et al) (CLO), 727
Velocity, cerebral blood flow, in infants with polycythemia and hyperviscosity: Effects of partial exchange transfusion with plasmanate (Rosenkrantz and Oh), 94
Venipuncture blood counts compared with microcapillary measurements in screening for anemia in one-year-old infants (Thomas and Collins), 32
Venous sinus thrombosis, complications of mastoiditis, with special emphasis on (Venezio et al), 509
Vesicoureteral reflux re obstructive uropathy (Holland and Wyatt) (Letter), 485; (Warshaw and Fine) (Reply), 485
Vidarabine therapy of varicella in immunosuppressed patients (Whitley et al), 125
Virus, Coxsackie B, and autoimmune diabetes (Bartsocas et al) (Letter), 647; (Champsaur) (Reply), 648
infection, Epstein-Barr, and hepatitis B antigen–negative infantile papular acrodermatitis, possible association between (Konno et al) (CLO), 222
neonatal herpes simplex (Kohl) (Letter), 794
parainfluenza, in childhood, natural history of (Welliver et al), 180
respiratory syncytial, and apnea in infants, association of (Anas et al) (CLO), 65
panniculitis, measles, subsequent to vaccine administration (Buck et al), 366
respiratory syncytial, and other viral pathogens in acute otitis media, role of (Klein et al), 16
and otitis media with effusion (Teele) (Editor's column), 61
Vitamin D absorption, decreased, following limited jejunal resection in a premature infant (Markestad et al) (CLO), 1001
relationships, maternal-infant, during breast-feeding (Rothberg et al), 500
Vitamin E prophylaxis, effect on incidence and severity of bronchopulmonary dysplasia (Saldanha et al), 89
Vitamin K–dependent clotting factors in normal breast-fed infants (Tay and Yip) (Letter), 795; (Jiménez) (Reply), 795

W

Water balance in very low-birth-weight infants: Relationship to water and sodium intake and effect on outcome (Lorenz et al), 423
intoxication from swimming (Kropp and Schwartz) (CLO), 547
loss, insensible, and heat loss in preterm infants in incubators, effects of forced convection of heated air on (Okken et al), 108
Wheezing and croup following infection, role of parainfluenza virus–specific IgE in (Welliver et al), 889
Wilms tumor, fatal intraoperative pulmonary embolization of (Shurin et al) (CLO), 559
Wolff-Parkinson-White syndrome, ventricular fibrillation associated with use of digitalis in newborn infant with (Byrum et al) (CLO), 440

X

X-irradiation, diagnostic, as possible etiologic agent in thyroid neoplasms of childhood (Pillay et al) (CLO), 566
X-linked agammaglobulinemia, symptomatic giardiasis in three patients with (LoGalbo et al) (CLO), 78

Z

Zinc concentrations, serum, in infants and children, effect of diarrhea on (Naveh et al) (CLO), 730
copper, calcium, and magnesium in human milk (Fransson and Lönnerdal), 504
